# Late Sh. Bhagwat Prasad Shukla "Babu Ji"

(25/06/1934 – 20/08/2018)

Founder  
Einstein Public School

## Expanding Horizons

We intend to provide and promote a global exposure to our students to enrich and diversify their reach. We envisage multidimensional learning through opening wider avenues and gaining valuable experiences, spreading their wings to broaden their horizons and be a part of the global community. In the pipeline are international collaborative programmes which will lead to development of soft skills, leadership, problem-solving, teamwork, adaptability and critical thinking.

Expanding Horizons

# The House System

The students from class 3 onwards are divided into 4 Houses - Dhruv House (Yellow), Eklavya House (Blue), Nachiketa House (Green) and Prahlada House (Red) named meaningfully after the legendary 'All-time great Shishyas' who were ardent devotees of knowledge. The House system aims to give a sense of identity and pride in a supportive environment. It ensures the participation of students in co-curricular activities with a competitive spirit, providing leadership opportunities to students.

House System

The foundation stone of Einstein Public School, Lalganj, was laid on 04.09.2006 under the visionary leadership and guidance of Shri Bhagwat Prasad Shukla (Babuji). The selfless service of Babuji for the social, economic and educational upliftment of rural areas will always be inspirational and a guiding force to the EPS family. The school was started with the vision to fulfill the need for quality education for the students in this part of rural India and act as a catalyst for strengthening and enriching the socio-cultural and social-economic foundation of rural India.

The seed that was sown by the founders is now bearing glorious fruit, being dispersed far and wide. A little sapling has gently unfolded itself and will soon see the light of day in the form of our new branch in Pratapgarh city. An investment in knowledge pays the best interest, and it's our sincere endeavor to spread this light of knowledge by awakening, illuminating and igniting minds towards myriad avenues that are available.

Our new school situated in Pratapgarh City has a promise to keep, a promise to the people of this area to provide them with world-class education; offering them an innovative learning environment and to meet the needs of those who seek holistic education not only for making a career for themselves or earn a living but also for a life with its intricacies and challenges. We are committed to providing education for the academic, social and moral development of children under our care. We employ blended learning programmes that incorporate the latest technology to match the instructional content and deliver matchless learning outcomes to the unique interests of each child. We sincerely strive to carry forward the legacy of our founders and fulfill the dreams and aspirations of young minds.

# Mission

The mission of the school is to provide the right inputs to help the children grow into caring individuals, equipped to make the right choices in life and grow up to be responsible citizens of the country and of the world.

The school's motto "Knowledge is that which liberates" is the cornerstone around which the character and personality of every child is built. The school visualizes an educational system based on the four basic tenets: Universal values, excellence in all things, global understanding by viewing diversity as an asset, and service to humanity.

# Vision

Einstein Public School provides a learning environment that encourages every child to achieve their potential. We believe that given a holistic, value-based education; children grow up to be sensitive adults who not only strive for excellence but contribute to the society as well.

# Transport System

EPS has a robust transport system in place which takes immense care for the security and safety of the children. The well-maintained buses & other vehicles along with trained drivers catering to a radius of 25 km form a congenial, stress-free and happy commute for the children.

Mission & Vision  
Transport System

# Music, Dance & Art Education

We understand the need to integrate Art, Music and Dance in the formal schooling system and we pay adequate attention towards its intricacies and detail. This inspires students to excel in and out of the classroom, increases motivation and improves academic performance, leading to overall development, sowing seeds of innovation and creativity.

## From The Principal's Desk

Dear All,

I am profoundly delighted to be a part of this wonderful family of the Einstein Public School. I have been dedicated to the field of education for more than twenty-five years and am overjoyed to bring my skills as an educational leader to the Einstein family.

Education is a shared commitment between dedicated teachers and motivated students along with the enthusiastic parents. The world today is changing at an unprecedented pace and we as educators need to innovate, inspire and ignite the young minds towards achieving their goals.

It would be my endeavour to create a stimulating and caring environment where each child could develop their full potential and transform them through the learning process during their journey at EPS. We nurture them with immense love and care, providing them with opportunities to grow.

Upholding the dictum- 'Let noble thoughts come to us from all sides', I would as a mentor and guide provide true hand holding and support to those under my care. My openness to learn and my child-centered approach will spread the light of education in a a child-friendly way, nurturing their curious and inquisitive minds in the right direction. I am here to make every effort to help our students become global citizens, equipped with a vast set of life skills to pursue their passions.

Aim high! Follow your dreams passionately, toil to achieve them and flourish.

My best wishes to all.

Ms Parveen Rizvi

Music, Dance & Art

Principal's Desk

# Why choose Einstein Public School

- Clean, safe and secure environment for holistic child development.
- Experiential learning with hands-on experience using audio-visual aids.
- Career counselling and guidance provided by trained and experienced staff and Principal for future career plans.
- Focus on communication skills and preparing them with life skills for the cut-throat competition in the outside world.
- Our school is under the BaLA (Building as a Learning Aid) scheme, a very innovative concept in the teaching-learning process where the entire physical space and building are used as a resource for learning both inside and outside.

Beautifully landscaped green campus with a stimulating ambience for the children to bloom and blossom in a happy environment.

## Sports and Games

Sports and games are an integral part of the school curriculum. They build character and teach them to play by the rules.

'You will be nearer to Heaven through football than through the study of Gita' said Swami Vivekananda.

At EPS we aim to develop an all-round personality by inculcating a culture of sports and sportsmanship. Our sprawling campus with playgrounds for football, basketball, lawn tennis, throw ball, volleyball, and other games, are second to none in splendour & beauty.

# Our Computer Labs

Students need to embrace the technological advancements of the present-day needs. Technology has become an integral part of the education system and studies cannot be imagined without internet and computers. Our well-equipped & modern labs make learning seamless and efficient for the EPS students and provide them with all the support needed.

# Kids Play Area

If you want your kids to grow into geniuses, read them a lot of fairy tales.

--Albert Einstein

We have a big reason to smile. Yes, we are creating a land of fairy tales for our little children. Our kids play area is designed aesthetically, skillfully, and creatively for our angels to bloom to their full talents in a friendly and play-way manner. It will infuse them with abilities to think and encourage peer learning in an informal way. Each and every child will benefit from the activities designed and initiated by skilled staff who act as facilitators.

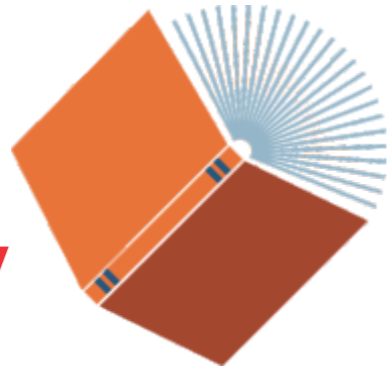

Building interpersonal skills, teamwork and social skills are the learning outcomes hard to measure.

Computer Labs

Kids Play Area

# The Library

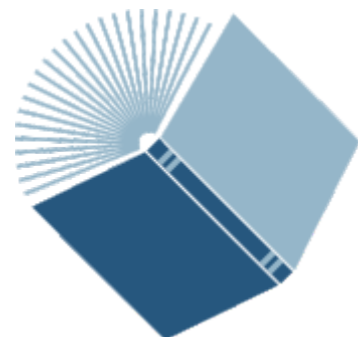

Libraries store energy that fuels imagination, opening windows to the world and inspire us to explore and achieve. Our school has a well-stocked library with a vast collection of books to inculcate the habit of reading among children.

## Environmental Studies

The students are made aware of the critical issues related to dwindling resources and degradation of the environment not only through bookish knowledge but also through a very practical approach. The students actively participate in activities like plantation drives, conducting rallies, marches and street plays to generate awareness amongst the public towards their duties towards 'Mother Earth' and protecting it from harm.

## Languages

At EPS, we pay special attention towards training students in developing various skills of language: learning listening, speaking, reading and writing. Apart from the classroom training from textbooks, we expose them to active learning methods like story-telling, songs, recitation, elocution, speeches and debates which work wonders in developing vocabulary, pronunciation and diction. They gain confidence in public speaking, critical thinking, reasoning and articulation.

# The Laboratories

All the world is a laboratory to the inquiring mind.

-Martin H. Fischer

The well-equipped school laboratories allow students to get a first-hand learning experience by performing experiments on their own, thereby enhancing mastery of science and developing reasoning and practical skills.

Our physics, chemistry and biology labs built in accordance with student requirements are sure to develop deep thinking on the concepts and theories in the textbooks
